# Faith

PAINTING COMPETITION FOR  
THE CALENDAR 2024

“Faith” implements belief, trust, confidence, and loyalty

“Faith” is a word with many positive meanings.

The belief in yourself or in others, the “Faith” in someone or in something greater than ourselves, the confidence in what lies ahead or the devotion to others.

“Faith” is not just an emotion rather it’s a decision to change or believe in something. Despite not being visible, “Faith” can be demonstrated everyday in the interactions we have and the example that we set for others. With “Faith” you can surpass yourself and change your world or the world around you.

Show us what is important to you, what you believe or place your trust in, what you have hope for and how this can be demonstrated through your art practice. Let’s create a calendar full of confidence and hope.

We look forward to your contributions.
