# EMOTIONS & PASSION!

***PAINTING COMPETITION FOR  
THE CALENDAR 2026***

## Emotions & Passion!

We invite you to participate in the painting competition 'Emotions & Passion'. Let's celebrate the unwavering spirit, passion, and unique emotions of sport. It shows how sport connects people from all places of the world and sparks the unstoppable passion of both athletes and fans. The entries should capture the competitive spirit, and perseverance that defines true champions driving them to perform at their very best.

Take part and capture intense moments in powerful images – from victories and game-changing moments to the vibrant atmosphere of huge sporting events. The impressive architecture of modern sports venues and the diversity of nations surrounding international events also offer exciting ideas for a motif. Stadiums become cultural landmarks and merge sport, design, and culture into something unique. Cities and landscapes surrounding major sporting events – such as the 2026 World Cup – provide an incredible source of inspiration while focusing on the international character of sport and the diversity of participating countries.

Take part and let us see your vision of unstoppable spirit and emotion in sports!
